Re: Continued Response to Right to Know Requests

Dear Mr. Lynch:

Pursuant to your request enclosed please find the following items:

1. County of Allegheny – Election tabulation network analysis – November 6, 2006 (4 pages);
2. County of Allegheny - Election tabulation network analysis – follow up review (4 pages);
3. Allegheny County - Election Day parallel test – November 7, 2006, from Terry and Stephenson P.C. (5 pages). Note that the exhibits are voluminous and also that the 9 video tapes are available for reviewing if desired. Please make any such arrangements through my office.

As you are the contact person all information requests through Vote Allegheny, I will address the information request set forth in Ms. Glickman's letter of May 7th as follows:

1. The survey to the Judges of Election from the November 2006 Election did not result in any report or compilation. Presumably there is one survey from each election district which, if desired, can be viewed or copied;
2. The test deck to be used for the logic and accuracy testing shall be comprised of over 20,000 ballots, which ballots are two sided. Obviously the cost of copying the test deck is high. Advise accordingly.
