For immediate release:

VoteAllegheny supports the Pennsylvania Voter's Choice Act. Pennsylvania's existing ballot access rules are unduly burdensome to individual candidates and parties. They impose an unnecessary and unworkable threshold for ballot access that, as currently structured, admits costly challenges which tie up taxpayer-funded courts and deny some voters the right to select candidates of their choosing. The act proposes a much needed simplification and rationalization of existing rules that allows for greater voter choice without imposing undue costs on the conduct of elections.

VoteAllegheny a nonpartisan election protection organization dedicated to ensuring that elections reflect the will of the voters by ensuring that all voters are able to vote in a secure, private, auditable, and accessible manner.
