Re: **Follow-up**

Ladies and Gentlemen:

Following up on our communications in writing and at the Board of Elections meeting last Tuesday, we are anticipating the following:

1. Receiving a copy of the Vigilant Minds report from the November election (which was promised us before last Friday);
2. Receiving a copy of the results of the Judges of Elections survey from November;
3. Receiving a copy of the parallel testing report from the November election and details of plans for parallel testing for this election (which was also promised us before last Friday);
4. Delineation of the Division's policy regarding the test deck to be used for logic and accuracy testing of the optical scanner, and receiving a copy of the test deck to be used tomorrow in such testing.

Of course, we also eagerly anticipate receiving responses to the many outstanding written requests for information we have already submitted over the past six months, all of which is important and germane to this coming and all future elections.

We understand that this is an incredibly busy time in the Elections Division; our group of volunteers is equally busy for the same reason: it is superlatively essential and behooves us all to make every effort to assure that this election and all successive elections are as safe, secure, recountable, and accessible as possible. And time is of the essence.

We look forward to a speedy response. Thank you very much.

Sincerely,

Audrey N. Glickman
Secretary/Treasurer
